

CONSTRUCTION STRING LIGHTS

SEARCH CODE: SC43931

FEATURES:

- **LED SMD Type:** Equipped with Edison 2835 LEDs for high-performance lighting.
- **High Lumen Output:** Provides 6,000 LM or 12,000 LM for optimal brightness.
- **Color Temperature:** Emits crisp daylight white light at 5000K.
- **360° Beam Angle:** Ensures full coverage for even illumination.
- **Durable Construction:** Housed in high-quality materials for long-lasting reliability.

APPLICATION:

- **Construction Site Lighting:** Ideal for active construction zones, delivering reliable illumination to enhance visibility and ensure safety.
- **Scaffolding & Walkway Illumination:** Perfect for lighting up scaffolding, walkways, and other key access points for seamless navigation.
- **Warehouse & Industrial Areas:** Suitable for large-scale storage facilities and industrial environments requiring robust lighting solutions.
- **Home Renovation Projects:** A practical choice for residential renovations, offering flexibility and dependable performance.

WARRANTY & LISTINGS:

- 2-Year Warranty
- ETL listed for compliance with safety standards
- IP65 rated for wet location use

ELECTRICAL:

- **Voltage Range:** Operates on 120-277V AC at 50/60Hz for wide compatibility.
- **Power Usage:** Available in 5 x 10W or 10 x 10W configurations to suit your needs.
- **High Efficiency:** Delivers up to 1,200 LPW for superior energy savings.
- **Power Factor:** >0.9, ensuring high energy efficiency and reliability.
- **Ballast Bypass Compatible:** Designed for AC direct installation or bypassing existing ballasts.
- **Low Harmonic Distortion:** THD ≤20% for stable and efficient operation.
- **Durable Cord Design:** Features an injection-molded, strong tensile strength cord (18/2 SJTW).
- **Operating Temperature:** Performs in environments ranging from 5°F to 113°F.
