

LED SOLAR DUSK-TO-DAWN LIGHTS

[Pole Clamp Mount]

10W-15W

30W

50W-80W

FEATURES:

- No wires needed and can be mounted onto wall or pole
- High quality
- Turns on and off automatically: Night sensor comes on at dusk. Press the switch once to turn on.
- Must be charged directly under the sun
- Aluminum Alloy body
- Excellent heat dissipation
- Pole is not included

WARRANTY & LISTINGS:

- 3-year warranty
- IP 65 Waterproof
- 25,000 hour rated life

APPLICATIONS:

- Garden
- Deck
- Yard
- Patio
- Driveway
- Parking lot
- Roadway

WORKING TIME:

Approximately 3 nights on a full charge.
Data is based on charging 8 hours in direct sunlight.
Working time may change depending on installation areas, seasons, environments, and the direction.

HOW IT WORKS:

1. Charge in direct sunlight for at least 8 hours
2. Solar fixture always runs at 50% dim mode output and comes to full brightness when motion is detected.
3. At full charge the fixture will run up to 3 nights while operating in mostly 50% dim mode.
4. Dusk-To-Dawn and motion sensor come standard and cannot be disabled or overridden.

Press switch once to turn on

Mount on wall or pole

Charge directly under the sun

Turns on at night
Turns off at dawn
Motion activated
